STEP 1

Unpack

What do I need?

- Wooden Spoons (to help insert fluff)
- Scissors
- Buckets for fluff
- Thick Pen

You are provided with a variety of Stufflers in your pack. Every child should be handed one Stuffler each.

There are 2 popular ways:

- 1) 'Pass-the-Parcel' where each layer reveals a bear.
- 2) Put the bears into brown bags and hide them in the yard for kids to find. Every child will love whatever they get!

Stuff the legs first then the arms while kneading the stuffing into any creases or small parts with your hand or wooden spoon. Fill the head and body last. To get a softer animal it will need less stuffing than a firm animal.

It should take no more than 10-15 minutes to fill each Stuffler with fluff. All children should be supervised by an adult. We suggest that you get some buckets and fill them with the fluff for each child - this is a fun experience for all.

When finished, Hand out LOVE (made from fabric) to each child and repeat the following as they insert into the Stuffler:

"I fill you with LOVE my cute little friend and I will love you till the very, very end"

Pull the drawstring and zip up. Cut the drawstring with scissors after closing to lock it into position with our zip lock feature.

If you have ordered some of our sensational clothing packages, then the children can start to dress their Stuffler. Everyone will love their Stuffler - clothed or not.

**Clothing and Sound Chips are optional accessories*

Press this button. Hold it and speak into speaker to record for up to 10 seconds. Twist it to lock in place.

Let the kids fill in the birth certificates to complete the experience. They will need to measure the bear with a ruler or tape. If you don't have scales to weigh the bear, most bears are approx. 300 grams.

Let the kids play with their new friends. Kids have great imaginations and will have a BEARY great time.
